COOL YOU CAN COUNT ON.

LEADING THE COMMERCIAL REFRIGERATION IN F-GAS COMPLIANCE

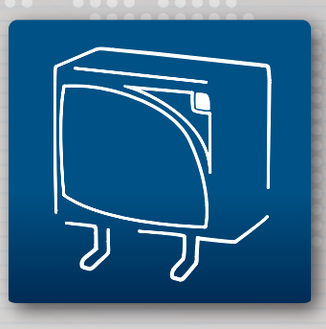

In accordance with F-Gas regulations, Tecumseh compressors and condensing units are now approved for use with refrigerants R290 (propane), R452A, R449A R1234yf and R513A.

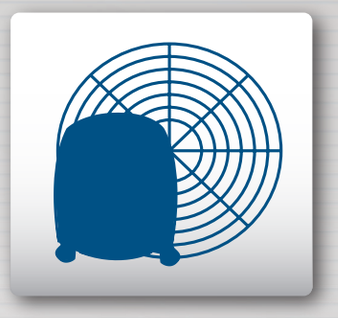

Nearly two years of testing has been devoted to the new refrigerants, insuring that product reliability and performance are in strict accordance with our standards. Our dedicated staff of engineers and application specialists are available to assist you with F-Gas compliance.

For more information, visit www.tecumseh.com

*Due to very high discharge temperature especially on LBP conditions, please strictly refer to Tecumseh Guidelines & Marketing Bulletin when using R449A with R404A models

COOL YOU CAN COUNT ON.

ALTERNATIVE MID-TERM REFRIGERANTS TO R404A

Almost all current Tecumseh compressors and condensing unit ranges initially designed for R404A refrigerant can now be used with R449A and R452A refrigerants, under certain conditions, especially for R449A. Thanks to their GWP significantly below than R404A, they allow to meet F-Gas requirements without limitation in time for condensing units and until 2022 for refrigerators and commercial freezers and will be also less impacted by the quotas than R404A.

HBP 31 models from 364W to 27000W
LBP 29 models from 65W to 10 000W
EN12900

HBP 37 models from 299W to 28 000W
LBP 30 models from 144W to 12 194W
EN13215, T°evap (HBP -10°C, LBP -30°C)

HBP 27 models from 788W to 15 160W
LBP 17 models from 375W to 6 110 W
EN13215, T°evap (HBP -10°C, LBP -30°C)

Please refer to Tecumseh Guidelines for using R449A and R452A refrigerants with R404A models. Visit www.tecumseh.com

R404A • R452A • R449A

OPTIMIZED MULTI REFRIGERANT OFFER - X RANGE

One range dedicated to wholesalers designed for use with several refrigerants.
- less models in stock
- improved availability

HBP 15 models from 580W to 7 200W
LBP 11 models from 213W to 2 500W
EN12900

R134a • R513A + R404A • R452A

ECO-FRIENDLY REFRIGERANT OFFER

Compressor and condensing unit ranges dedicated to run with eco-friendly R290 refrigerant

R290

HBP 8 models from 330W to 1 206W
LBP 5 models from 100W to 720W
EN12900

HBP 5 models from 332W to 727W
LBP 3 models from 146W to 310W
EN13215, T°evap (HBP -10°C, LBP -30°C)

SELECT

Compressor and condensing unit models with these refrigerants using Tecumseh Selection Software that includes:

- Performances and polynominal data for R449A and R452A
- Model number selection using bubble or mid temperature
